## **Forward**

It is heartening that N.D.V.W.T.T.College has infused a new spirit into its process of evaluation to place at Global benchmark by introducing the structured feedback mechanism system. Bravery is the essence of knowledge. Feedback is the two directional way of communicate between the stackholder. The most effective feedback, either positive or negative both are equally important for continuous improvement as it helps in understanding the strengths, weakness, opportunities and faced by the organisation. It is advantageous to the organisation as well as the stackholder as improvisation made based on the feedback received benefit's all the stackholders.

Feedback from students employees and illuminai inculcates a sense of ownership about the organisation and make them feel valued and responsible. Regular feedback is important across the entire Organisation in order to remain aligned to the goals and is a part of continuous learning process for regular improvisation to serve better. The feedback from all stakeholder in term of its relevance and apportunitieness in catering to the need of society, economy and environment help in improving the input. The feedback system will have an active process of note only collecting feedback from all stackholder but also analysing it and identifying and drawing partinent pointers to enhance the learning effectiveness. Hope new structured feedback mechanism system of the college will be meet at requirements for being higher educational institutions.
